**HURRICANE SAFETY**

Hurricane season is June through November. Take action Now! Be prepared!  
REMEMBER: All mobile home residents must evacuate, regardless of location.

- Decide NOW where you would go if ordered to evacuate (a friend or relative, a hotel or motel, out of the region or, as a last resort, to a shelter). Remember, if you are going to leave the region or go to a hotel, you must leave early. Pre-determine your route when possible.
- Check your Disaster Supplies Kit and obtain any items you need.
- Make plans and purchase materials to protect your home before the storm (plywood, shutters, or protective window film. Plastic sheeting, nails, etc).
- Purchase a battery powered weather alert radio.
- Inventory your property (a video tape is excellent). Store the inventory with insurance and title papers in a safe place. Or send a copy to a relative out of the area.
- Make sure your address (number) is clearly marked on your home.
- Whether you rent or own your home, review your insurance policies with your agent now.

**LOCAL SHELTERS**
